There is no foundation whatever for the assertion that Col. Fremont is a Catholic, and
whatever may be his qualifications or disqualifications a connection with the Church of Rome
is not one of them. We speak with purfect confidence upon this point, and after fall inquiries
in the best informed quarters. A misrepresentation of Col. Fremont's religious belief is certainly unjust to that gentleman, and equally
unjust to the public. We, therefore, make this
correction; although we must be permitted to
may, in the same connection, that we are not of
those who think that the religion of a citaen
ought to disqualify him for office. We leave to
the Democracy of New Hampshire a doctrine so
repuguant to the spirit of the Constitution.

Uorl! What Weather.—It is a isoticeable fact that the thermometer in this city has not bell advectoring point (327) at 7 o'clock in the morning, nor at 6 o'clock in the evening, since the 30th of December.—a period of ciptiy-eight days! This is, we believe, without parallel in the history of Western winters. On the 22d Pebruary, rain fell in the evening, hat it from a miret a soon as it struck the ground. With this exception, there has been no rain since December 15th. In 1833, the winter of the deep now—the security of the weather was then upage ampled; but the continuance of the "frigid term," was abort compared that the cold was due to the great body of more on the ground—a proposition that the experience of this year has exploided.

experience of this year has exploded.

The Reaper, a neat and readable sixteen column weekly, has come to hand. It is published monthly by Mesure. E Danford & Co., Gepren, Illinois, and one thousand copiesare irrecluded gratefluouly. The design of the paper is to give prominence to the un-surpassed mover and reaper manufactured by them of which the number before us contains a large one graning. The Reaper is filled with a goodly quantity of well-selected reading matter, and is a frust-rate advertising medium, particularly for manufacturers of Agricultural implements.

In the moreing a procession formed of the Montgoinery, Shields, and Emnet Geards, and the Chicago Biberlain Beavolent Society, marched through the principal attrects. The military presented a fine and creditable appearance, and the green and white badges of the members of the Association were exceedingly appropriate.

In the afternoon a Festival was given at the West Market Hall, which passed off very pleasantly.
